

# PROTECT-A-DOOR SPECIALIST IRONMONGERY

**PRODUCT NAME**  
**DOOR FRAME**  
**GUARDS**

**RIGID DOOR FRAME GUARD**

**ROTARY DOOR FRAME GUARD**

## INTRODUCTION

In many high traffic areas of a building, door sets more than any other structural element are subjected to unacceptable levels of punishing treatment.

## DESCRIPTION

Sealmaster door frame guards, available in both rotary and rigid guard versions are designed to counteract wear and tear on door frames and exposed wall corners by deflecting objects and traffic away from the vulnerable areas.

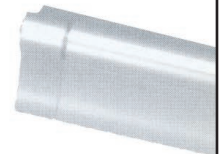

## APPLICATION & PERFORMANCE

Sealmaster rotary door frame guards have been impact tested to 500kg at 2mph. The rigid version design allows variable fitting locations to allow most door frame sections to be accommodated. Both versions are simple to fit and virtually maintenance free.

Their design helps to avoid the need for repetitive maintenance and replacement of frames and door lippings. The rotary frame guard is supplied in 600mm lengths as standard with either a 25mm or 50mm diameter rotating drum.

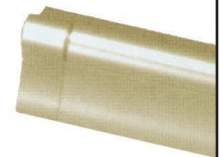

*Colour coating to any RAL number*

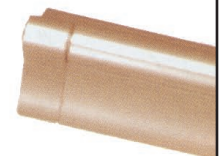

*Wood grain*

*Gold*

*Bronze*

*SAA*

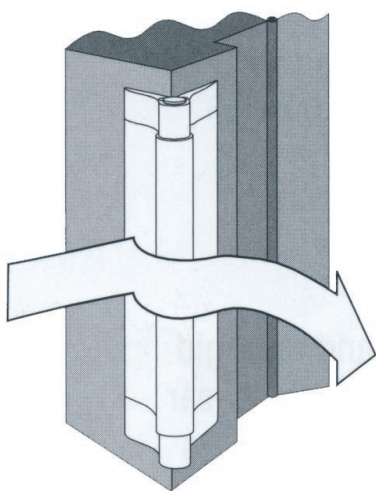

The rigid frame guard is supplied in 2.5m lengths as standard and is designed to be cut to size on-site.

Both frame guards are supplied in satin anodised aluminium as standard. Other anodised finishes and RAL colours are available to order.

PRODUCT NAME  
**DOOR FRAME  
 GUARDS**

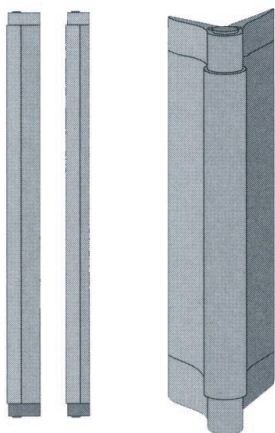

**ROTARY DOOR FRAME GUARD**

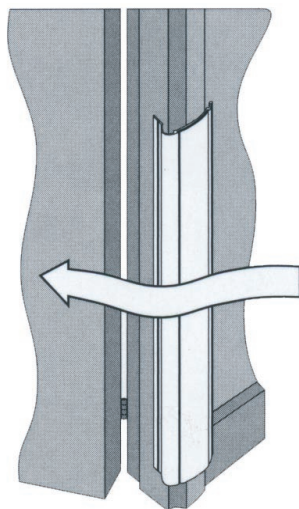

The rotating drum protects the door frame and deflects objects away from the vulnerable edge of the door.

Height (see table)  
 Leg size 50mm / 25mm

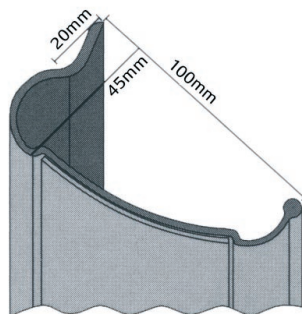

**RIGID DOOR FRAME GUARD**

The Rigid Frame Guard deflects objects away from the vulnerable rear edge of the door.

Choice of:  
 2500mm or specified cut size.

**AVAILABILITY**

**Rotary Door Frame Guard**

Order Code	Leg Size	Length
DFG/B/25/600	25mm	600mm
DFG/B/25/800	25mm	800mm
DFG/B/50/600	50mm	600mm
DFG/B/50/800	50mm	800mm

**Rigid Door Frame Guard**

Order Code	Length
DFG/A/FULL	2.5mm
DFG/A/CUT	Cut to size - cost proportionate to number of lengths extracted from 2.5m

Standard finish natural satin anodised aluminium. Optional extras: coloured PVC centre panel with matching or variable aluminium colour finishes.
